### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance: The issues discussed in the interview of 25 August 2004 were presented to Quality Assurance Specialist Brian Stanton. It was agreed that, while the populations potentially treated need not be co-extensive for treatment of bone or cartilage damage to have inherently occurred, in fact only eight mice were treated in the '366 patent and no specific guidance as to treatment methods or populations is set forth in that patent. Thus there is insufficient evidence in the patent to support a finding of inherency.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Janet L. Andres whose telephone number is 571-272-0867. The examiner can normally be reached on Monday, Tuesday, Thursday, Friday, 8:00-4:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Brenda Brumback can be reached on 571-272-0961. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
